2K Duo

**Water-based 2-component polyurethane
finish for wooden floors**

2K Duo with improved slip resistance – versatile and proven worldwide

A true universal talent, 2K Duo is available in six different variants. It makes wooden surfaces extremely resistant and is perfectly suitable for a wide range of applications, from event halls to offices and homes. 2K Duo is ideal for almost all types of wood and has been certified as particularly low in emissions according to EMICODE® EC1 Plus.

LOBA – Your partner for surface finishing and care

Why **end users** are convinced of 2K Duo:

- High resistance to wear
- Excellent resistance to abrasion
- Particularly low in emissions (satin, semi-gloss, and anti-slip variants)
- Available in 4 different gloss levels and 2 anti-slip variants
- All variants offer ideal slip resistance

Why **contractors** are enthusiastic about 2K Duo:

- Excellent resistance to chemicals and abrasion
- Improved slip resistance: variants gloss, semi-gloss, satin and extramatt
- Safe and easy application
- Extremely easy to mix
- Can be used on various flooring, including colored floors
- Particularly low in emissions, EMICODE® EC1 PLUS [1]
- Part of LOBA Wakol – Connected Systems

Special features

Thanks to its excellent resistance to wear and high level of slip resistance, 2K Duo is ideally suited to flooring subject to heavy traffic.
